**6. Consent.** Landlord hereby consents to the terms of the Deed of Trust, and agrees that at Secured Party's discretion, the Deed of Trust and/or this Agreement may be recorded by Secured Party in the real estate records where the Property is located. **Resolution No. 256**  
**Rocky Jenkins**

**WHEREAS**, school buses provide over 25 million children with safe transportation to and from school each day and travel 4 billion miles a year; and

**WHEREAS**, Rocky Jenkins of Froebel Elementary and his art instructor have been active and enthusiastic participants in the 2009 "Idle Free-Turn the Key" District wide Art Contest. This contest is a partnership with the St Louis Public School District, The City of St. Louis, Grace Hill Settlement House-Clean Air Project, the Region 7 EPA and Prairie Archway International, Inc. and focuses on the benefits of idle free school districts on community health and environment; and

**WHEREAS**, he understands the importance of Clean Air, more importantly the importance of reducing toxic air emissions in the City of St. Louis; in order to reduce St. Louis City's currently very high rates of asthma, eczema and respiratory illnesses among drivers, students, and area residents; and

**WHEREAS**, this contest was a District wide contest judged by SLPS Operations Administrators, City of St. Louis officials, former SLPS Art instructors and local artists at the Board of Education on October 2009; and

**WHEREAS**, this contest is supported by the St. Louis Public School District Office of Transportation, Operations and the St. Louis Public School District Board of Education; and

**WHEREAS**, this student has been awarded top distinction for his artistic ability and creativity; and

**WHEREAS**, the St. Louis Public Schools and its students are doing an excellent job at raising community awareness about excessive idling and reduced air pollution. This artwork will be used at local bus yards and in anti-idling publications and during local outreach efforts; and

**WHEREAS**, reduced idling and the implementation of the "No Idling Zones" at each SLPS school will save the school district thousands of dollars in fuel costs and reduce asthma related school absences; and

**WHEREAS**, the St. Louis Public School district uses more than 535 buses per day to transport children to and from school. The

EPA grant that co sponsored this art contest will save more than 87, 884 gallons of diesel fuel per year, 454 tons of CO<sub>2</sub>, 10.4 tons of NO<sub>x</sub>, 26.5 tons of particulate matter and 345.2 tons of hydrocarbons from entering the cabs of buses and the air that students and drivers directly breathe; and

**WHEREAS**, everyday in America there are more than 450,000 yellow school buses on the road nationwide, and 390,000 of those are diesel; and

**WHEREAS**, the City of St. Louis has amended the City of St. Louis "No Idling" ordinance to prohibit idling for more than five minutes, meaning that reducing pollutants means simply turning your engines off. The current ordinance is ordinance #65645.

**NOW THEREFORE IT BE RESOLVED** by the Board of Aldermen of the City of St. Louis that we pause in our deliberations to commend Rocky Jenkins for his efforts and wish him luck in his future artistic endeavors and we further direct the Clerk of this Board to include a copy of this Resolution in the minutes of these proceedings and to prepare a memorial copy for presentation at a time and place deemed appropriate by the Sponsor.

### SECOND READING OF RESOLUTIONS

Mr. Kennedy introduced Resolution No. 10 and the Clerk was instructed to read same.

#### Resolution No. 10

#### Cleanup of the West Lake Landfill

**WHEREAS**, 66 years ago, the United States government began processing uranium for the development of nuclear weapons at the Mallinckrodt Chemical Works (MCW), near Downtown St. Louis. From 1946 until 1957 the radioactive wastes were trucked to a 23-acre tract at the St. Louis Airport on Brown Road (now McDonnell Blvd.) on the banks of Coldwater Creek, and were dumped there;

and

**WHEREAS**, some of those wastes were later trucked to Latty Avenue in Hazelwood for drying and shipping to Colorado for reprocessing, with dispersal resulting along the haul roads; and

**WHEREAS**, in 1973 some of the Latty Avenue wastes were illegally dumped at the West Lake Municipal Waste Landfill in Bridgeton, next to Earth City, in the Missouri River floodplain; and

**WHEREAS**, in 1997 Congress transferred responsibility from the U.S. Department of Energy to the U.S. Army Corps of Engineers for the remediation of the nation's abandoned sites where work had been performed for the early atomic weapons program; and

**WHEREAS**, the Corps has been directing the cleanup of all the sites containing MCW radioactive wastes in St. Louis City and County, under the Formerly Utilized Sites Remedial Action Program (FUSRAP), except for the West Lake Landfill, and expects to continue employing its trained contractors and personnel in St. Louis for an additional four to five years; and

**WHEREAS**, because the U.S. Environmental Protection Agency (EPA) had placed West Lake on its Superfund National Priorities List in 1990, it therefore had assumed responsibility for the landfill's wastes and remediation; and

**WHEREAS**, the EPA issued a Record of Decision in May 2008 about West Lake, dictating that the radioactive wastes were to remain in the landfill, with merely a cover of rocks, construction rubble, and clay, and no liner below to protect the wastes from groundwater leaching; and

**WHEREAS**, residents in St. Louis County north of I-70 and most St. Louis City residents drink water from the Missouri River, downstream from West Lake.

**NOW THEREFORE BE IT RESOLVED** by the Board of Aldermen of the City of St. Louis that we request that Congress transfer jurisdiction over the cleanup of West Lake radioactive wastes (Operable Unit One) from the EPA Superfund Program to the Corps of Engineers' FUSRAP and that those wastes be excavated and shipped to a licensed radioactive waste disposal site. Furthermore, the Board of Aldermen of the City of St. Louis urges all those involved in the cleanup of the West Lake radioactive wastes to ensure that these wastes no longer migrate into the human environment, to the detriment of today's and future generations.
